

## Cancers Gifts With Love & Hope

Imagine being diagnosed with a disease as seemingly minor as melanoma that quickly progresses to stage four cancer, where the chances of survival drop to less than 10% in five years. And, the options are only surgery, a handful of tough FDA-approved treatments, and a risky experimental therapy hundreds of miles from home. Usually we think of cancer as an ugly, terrifying disease. But Bob Heffernans amazing journey against all odds tells an uplifting story of perseverance, hope, and positivity that will inspire all cancer patients. He found that alongside fear and suffering, cancer provides numerous gifts that nourish the human soul. Its a story about how we can find goodness and beauty in even the most terrible challenge life throws at us: cancer.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
