

Black Boy White School

He couldn't listen to music or talk on the phone without her jumping all over him about what they listened to up in Maine, or how they talked up in Maine, or how he better not go up to Maine and start acting ghetto. Maine. Anthony's mother didn't even know where it was until he'd shown it to her on a map, but that still didn't stop her from acting like she was born there. Anthony Ant Jones has never been outside his rough East Cleveland neighborhood when he's given a scholarship to Belton Academy, an elite prep school in Maine. But at Belton things are far from perfect. Everyone calls him Tony, assumes he's from Brooklyn, expects him to play basketball, and yet acts shocked when he fights back. As Anthony tries to adapt to a world that will never fully accept him, he's in for a rude awakening: Home is becoming a place where he no longer belongs. In debut author Brian F. Walker's hard-hitting novel about staying true to yourself, Anthony might find a way to survive at Belton, but what will it cost him?

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
