

Those Other Religions in Your Neighborhood

This book is largely about contacts that do not feature immediate conversion. It is about life in the neighborhoods where you and I live. It is there, in the neighborhoods and not in academia, that religious pluralism is having its greatest impact. And it is in the small, everyday decisions about what kind of contact we want to have with Hindu, Buddhist, Muslim, Mormon, New Age, and Native American neighbors that the theological die is being cast that will shape the future of the American Christian church.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
