

Office + Work Spaces: International Portfolio of 43 Designers

Outsourcing, downsizing, internationally collaborating. . .office design has become increasingly challenging for architects and interior designers. As the workplace continually evolves through technological innovations, designers need to know how to be creative and cutting-edge in their solutions. This sourcebook shares the work of 40 designers who have accurately anticipated their clients changing needs and produced projects that have earned them respect across the globe. A fascinating and inspiring showcase of what designs work for today's workplace. From New York to Los Angeles and around the globe, a no-holds-barred approach to materials selection has opened unlimited possibilities for the workplace that run the gamut from elegant formality to unfettered whimsy. Add to that a new freedom to carve out free-form spaces and flood them with natural light, and you've got the ingredients for an office environment that people look forward to being in.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
