

The Big Book of Interiors

This paperback edition of The Big Book of Interiors features more than 600 different design ideas covering every room in the house and then some. For easy reference, the chapters are divided by location in the home: Living Rooms Bedrooms Kitchens Bathrooms Home Offices Kid Rooms Entrances and Corridors Each section opens with text describing the decorating challenges unique to that part of the house, followed by full-color design ideas showcasing hundreds of different solutions to outfit every size room with a range of current interior style methods. The styles featured focus on the most popular used by today's best interior designers, including New Rococo, Minimalism, New Rustic, Retro and Contemporary. Photographs are accompanied by captions explaining the different approaches from each designer and architect. Whether its one room or an entire house, The Big Book of Interiors is the ultimate reference for every homeowner ready to redecorate.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
