

Georgian Architectural Designs and Details: The Classic 1757 Stylebook (Dover Architecture)

Among the 18th century's most influential architectural designers and writers, Abraham Swan defined many conventions of English rococo detail. This reprint of an extremely rare and classic stylebook, compiled by the English architect nearly 250 years ago, provides outstanding examples of Palladian and Georgian architecture and design in colonial America and England. Included are floor plans, detailed elevations, and drawings for cornices, mouldings, and other decorative elements that demonstrate Swan's unique style. Designed, in his words, more for Gentlemen of moderate Fortunes than of great Estates who may be inclined to build Houses, Swan's designs featured such aesthetic touches as double staircases, elegant entryways, and two or three floors with spacious galleries, salons, and dressing rooms. Invaluable to architectural historians and designers, this splendid stylebook will delight devotees of early English Georgian and American domestic architecture and interior design, cultural historians, artists, and craftworkers.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
