

Africa 2014 (World Today (Stryker))

The World Today Series: Africa provides necessary information on all the countries on the African continent, including a thorough and expert overview of political and economic histories, current events, and emerging trends. Published annually, this work covers the latest changes and news in African affairs. Each country is examined in terms of several categories: Basic Facts; Land and People; The Past: Political and Economic History; The Present: Contemporary Issues; and The Future. In addition to country chapters, the book features extended essays on Africa's Historical Background and The Colonial Period, as well as a new essay this year on Africa in 2013. With its combination of factual accuracy and detail set alongside informed projections about the future of Africa's many diverse and distinctive countries, the book is specially designed as an authoritative and easy-to-use resource for students, researchers, practitioners in international development, media professionals, government officials, and potential investors.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
