

The Power of Freedom

A baby boomer growing up in the 1960s, author Denis Letendre lived life to the fullest, truly embodying the slogan of the times: Sex, drugs, and rock and roll. For five years after graduating from high school, Letendre experimented with drugs, alcohol, and sex. In *The Power of Freedom*, he explores those experiences and the lessons learned in the context of energy, power, and freedom. Through this five-year social experiment, Letendre discovered an enormous source of energy and realized a way to institute great change in the United States. *The Power of Freedom* examines the following topics in detail: Logical and illogical behavior Reality and self-created alternate realities Change from within Freedom The source and effects of the energy Historical changes An alternate future with solutions for the human condition *The Power of Freedom* communicates how both today's world and the future are faced with unprecedented challenges. It shows how change from within and the rejection of harmful behaviors will have a lasting and positive effect.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
