Discover the surprising history of Ole Miss School of Pharmacy. To mark the 100th anniversary of the founding of the Ole Miss School of Pharmacy, noted contributors have gathered to spotlight its unique background. Pharmacy Education at the University of Mississippi: Sketches, Highlights, and Memories reviews the trials and triumphs in the fascinating history of the school, exploring a tumultuous century that included wars, social upheaval, curricular revolution, and amazing successes. This surprising and engagingly written book details the school's transformation from a second-rate institution to an internationally recognized program. Beyond being the first public university chartered in the state, the University of Mississippi has a long history of innovative thinking. Near the beginning of the twentieth century, the Mississippi State legislature recognized the need to adequately oversee those individuals who would dispense medicines. So, in 1908, the University of Mississippi established its pharmaceutical department and set on a course of improving educational standards for students of pharmacy. Pharmacy Education at the University of Mississippi presents the highlights of events, challenges, and successes from the visionary founding of the school by a man not yet 30 years old on to its becoming a leading school of pharmacy in the United States. The book includes nearly three dozen photographs. We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
