

Second Chance: A Story of Spiritual Awakening

This book exists to dispel fear, and to enable ordinary people to understand that the life to come is nothing to fear. For when we enter that time, there is no more pain, not more loneliness. People can go, pass on, knowing that tomorrow is to be another day, and that one day we will all be together again. Margaret Hurdman's unique journey into the spirit realms whilst undergoing open heart surgery gave her a glimpse of the life to come for everyone, and 100% proof of our spirit loved ones and the part they can play in our life in today's world. When given the option to stay or come back from the spirit realms, she was told that the spirit world had a plan for her, which was to work for Spirit. This has provided Margaret with the ability to talk to people of all ages, all nationalities, famous clients, rich people and ordinary folk like herself. She enjoys her work in theatres, on live TV, and radio. Her work's purpose is to give proof that we cannot die. This is Margaret, an ordinary lady with an extraordinary gift - and an understanding of the earth plane, the Spirit world and the joys of things to come.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
