

To & From God: A Memoir of Finding & Losing Faith

Privately, I suspected there was some force that drove human existence. I felt it in me and outside me, all around me, and in all living things. To and From God is one mans spiritual journey from Churchie Anglican schoolboy in Australia to agnostic environmental activist. In this refreshingly honest spiritual memoir, geography teacher and orienteering enthusiast Robin Simson explores philosophy, scientific thought, theology, and environmental principles in a bid to explain how his passion for the natural world made him analyse long-held Christian ideals and to find them wanting in the face of secular humanism, Gaia theory, and ethics.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
