

## Quantum Resurrection: Healing with Vibrational Frequency and the Law of Attraction (Quantum Series Book 4)

Did you know that the vibrational state of who you are entrains itself to the world around you? Were you aware that lower vibrations can lead to stress and stuck energy, and that stress is the single biggest cause of illness? Have you sensed that much of the mainstream media is responsible for low vibrational output, and is the single biggest threat to your well-being? Thankfully there are ways that you can break out of the vibratory prison, because the beautiful truth is that you have always had the key, you just have to choose to use it. Discover throughout these pages how to remind yourself of energetic perfection with easy-to-use daily tools. A leading self-help guru is selling the information contained in these pages as a package retailing at more than \$150. When you can do-it-yourself for pennies-on-the-dollar, can you afford not to read this book?

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
