

Magic On The Breath

This is a book for anyone who has ever wanted to cast a spell quickly, effectively and without fuss. Its an invaluable magical resource that draws on Tylluans own experiences together with the ancient belief that all our power lies in our own breath. Through a series of exercises, she guides the reader from simple work with plants, through creating thought forms, visualising, magical ethics and principles, magical harnessing, working with the Third Eye and even invisibility spells. Tylluan is well known for her down-to-earth, common sense methods, and in this book she shows how even the most complex magical situations can be distilled down into a few simple guidelines. Put simply, Magic on the Breath is probably the only magical technique you will ever need!

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
