

Experiments in Pharmaceutical Chemistry, Second Edition

Written by an author with more than 40 years of teaching experience in the field, *Experiments in Pharmaceutical Chemistry, Second Edition* responds to a critical classroom need for material on directed laboratory investigations in biological and pharmaceutical chemistry. This new edition supplies 75 experiments, expanding the range of topics to 22 major areas of pharmaceutical chemistry. These include biochemical groups, botanical classes important to pharmacy, and major drug classifications:

Carbohydrates
Lipids
Proteins
Enzymes
Inorganics
Vitamins
Steroids
Plant

Acids
Flavonoids
Alkaloids
Tannins
Resins
Glycosides
Gums
Balsams
Volatile

Oils
Analgesics
Anesthetics
Sulfa Drugs
(Sulfonamides)
Psychotropic

Drugs
Antibiotics
Nucleic

Acids
Sections contain introductions to basic concepts underlying the fields addressed and a specific bibliography relating to each field. Each experiment provides detailed instructions in a user-friendly format, and can be carried out, in most cases, without the need for expensive instrumentation. This comprehensive laboratory manual offers much-needed instructional material for teaching laboratory classes in pharmaceutical chemistry. The breadth of subject matter covered provides a variety of choices for structuring a laboratory course.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
