

Outstanding leadership (Seconds Away from)

Over the past decade the need for practical leadership skills has grown dramatically in both the private and public sectors. Outstanding leadership has become established as a key requirement for managers at all levels. Managers in organisations of all sizes are also expected to be effective leaders and performance-focused coaches. Outstanding leadership is a concise guide to leadership by business speaker Molly Harvey. It is the first title in the Seconds away from series, a new collection of books that covers key management skills, presenting the information in bite-sized nuggets that can be implemented straight away. Future titles in the series will cover skills such as partnering, people management, focus, confidence and balance.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
