

## A Touch in the Dark

Dr. Teri Langston is enjoying life with her husband Reggie and doing all that she loves to do: traveling, eating good food, spending time with family and friends, and re-decorating her home. Her career is doing well, and life is grand. In her world, there is nothing else that she needs- except a little healing. From the recesses of her mind, her past sneaks back in to haunt her and remind her of traumatic events she once endured. In the midst of living fantasies fulfilled, Teri finds herself grasping for peace in the middle of a still, quiet storm. Surrounded by her loving family, Teri wonders if the memories will ever fade, if the uncomfortable feelings will ever subside, and if she will ever turn the past loose. Take this journey with Teri as she laughs, cries, rejoices, and looks for answers. Will she find the peace she longs for or will her suffering be prolonged?

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
