

Do You Really Know American English?

Every ESL student will want a copy of this brand-new book. It teaches everyday conversational American English by making abundant use of classic Americanisms, informal one-liners, and old-fashioned expressions still in common use. It also includes timeless proverbs, childhood rhymes, lyrics of traditional American songs, and well-known quotations from American writers. Metaphors and their informal meanings include phrases like in the doghouse and if the shoe fits. There are also idioms of command, such as pipe down and stay put. Words and expressions are grouped thematically in chapters, and citations come with both meanings and word origins. Every page is filled with questions about America and American English that the reader can answer as a way of evaluating his command of American-style English. Reading is made easy and pleasant with word games and humorous cartoons. Do You Really Know American English? is not a dictionary, but a virtual tour across America, offering informal history, cultural insights, and knowledge known to all Americans, but generally unfamiliar and often puzzling to people born abroad.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
