

## The Ultimate Edge: How to Be, Do and Get Anything You Want

Save time. Save money. Save heartache. This one-stop shop for self-improvement combines the art and science of over thirty years of Dr. Tina Thomas experience as a gestalt therapist to give you the tools to the fire of your personal problems rather than dealing with all the psychoanalytical smoke. Issues with work, goal achievement, anxiety, stress, depression, relationships? The Ultimate Edge gives you an edge in life by explaining how your brain creates your mental maps that initially protect you but ultimately can sabotage your life. You will learn how to change those mental maps so that, as far as your brain is concerned, you have an alternate past, which by default creates an alternate present and future, filled with liberating possibilities. Additionally, you will learn about the seven most misunderstood emotions and how to utilize them to your advantage. Finally, you will learn how to get your RAS in gear. The reticular activating system is a filter in the brain that, once activated, helps you to achieve your goals quickly and dynamically. More than an owners manual for your brain, The Ultimate Edge is a guidebook to more peace, passion, and power than you ever imagined!

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
