

The Plan of Love and Light

You have probably heard people say that God has a plan. But have you ever understood what it entails and what it means for your life? This book tells the story of the divine plan of love and light, which began even before humanity appeared on Earth. It reveals the soul's role in this cosmic plan, and how certain forces attempt to interfere. Discover *The Plan of Love and Light* by Helen Nethery Roberts, and learn how to sense the goodness that unfolds within the apparent negativity that surrounds us. About the Author Helen Nethery Roberts, daughter of Birmingham, Alabama bankers, took her college degree in Education magna cum laude from the Western Connecticut State Teachers College in 1973 and did graduate work in Psychology and Counseling at Georgia State University. Mother of three, Helen's life changed direction in 1976 when she was introduced to the Religious Research Foundation, founded by Rev. Dr. Franklin Loehr in 1952 to research life after death, prayer, and psychic phenomena. Then came a unique opportunity to study the soul through communication with a spirit guide called Dr. John Christopher Daniels. For more than 35 years, readings from Dr. John were channeled, researched, and cross-checked for accuracy. When Dr. Loehr died in 1988, there were over 5,000 readings. Based on the teachings in these readings, *The Plan of Love and Light* is the sixth book written by Helen under the auspices of the Religious Research Foundation. Rev. Roberts has also lectured, conducted seminars, and counseled many individuals in past-life recall therapy. In 1985, World University, Benson, Arizona, awarded her an honorary doctorate of philosophy for her research and writing.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many

brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
