

37 Seconds: Dying Revealed Heavens Help--A Mothers Journey

Like Proof of Heaven and To Heaven and Back, a medical drama with heavenly implications in which a woman receives premonitions of her death that come true, and her discovery of the heavenly help available to all of us. When she was pregnant with her second child, Stephanie Arnold had a sudden and overwhelming premonition that she would die during the delivery. Though she tried to tell the medical team and her family what was going to happen, neither the doctors nor her loved ones gave her warnings credence. Finding no physical indications that anything was wrong, they attributed her foreboding to hormones and anxiety. One member of the medical team did take her concerns seriously enough, and made the fateful decision to order extra units of blood just in case. Then, during the delivery, Stephanie suffered a rare Amniotic Fluid Embolism. She went into cardiac arrest and flat-lined for 37 seconds. She died. Using the supplementary blood, the medical team revived her, and she remained unconscious for more than six days. After months of recovery, Stephanie began to remember details of her experience, details she knew because she had witnessed the entire dramatic event, including her death, from outside her body beside other spirits that were with her. In this remarkable true story, Stephanie recounts her harrowing journey and shares her surprising spiritual discoveries: we are not alone and have more loving help than we can imagine surrounding us.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
