

Guide to Microforms and Digital Resources 2011

Guide to Microforms and Digital Resources is the internationally acknowledged standard guide to microforms, listing more than 225,000 publications available from approx. 260 publishers and distributors around the world. It has now also embarked on listing online titles and digitally-scanned research material, such as: rare and valuable monographs, historical journals, newspapers, periodicals, archive holdings, collections, bequests and much more. The alphabetical Author Title list comprises title entries with cross-references from authors and editors. The Subject Guide facilitates the search for products regarding specific subjects. The classification is based on a modified Dewey Decimal Classification System.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
