

# Progress in Drug Research / Fortschritte der Arzneimittelforschung / Progres des recherches pharmaceutiques: Tropical Diseases I / Tropische Krankheiten I / Maladies tropicales I

The present 18th volume differs from previous volumes insofar as, with the exception of two contributions, it is exclusively concerned with problems of a single field, namely Tropical Medicine. This was occasioned by the International Symposium on the investigation and treatment of infectious tropical diseases held in Bombay in January 1974 and organized by the editor in collaboration with the Minister of Health of the State of Maharashtra, Dr. Rafiq Zakaria, the Director of the Haffkine Institute, Dr. B. Gaitonde, and with Dr. J. N. Banerjee, Dr. S. K. Bhattacharya and Mr. P. DSouza. The Haffkine Institute celebrated on this occasion the 75th year of its existence and everyone entrusted with the organisation of the Symposium considered themselves fortunate to have been able to help in strengthening the contacts between Indian and foreign research workers, in the hope of, in this way, making a contribution to the fight against infectious tropical diseases. The editor hopes that the present 18th volume will represent comprehensive information on the topics treated at the Symposium; the 19th volume, which will soon appear, is concerned with the same area, so that the two volumes together should give a good picture of the many still unsolved problems. The editor would also like to take this opportunity of expressing his gratitude to his collaborator, Dr. A. Niif, who, as usual, performed valuable services in working over the manuscripts.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
