

Testament (Ukrainian): The Book of Books (Ukrainian Edition)

This is not a book for reading, knowing, understanding and forgetting. This is a guide for practice to know thyself, to realize wisdom, to know the Reality behind all existence ie., matter, life, intelligence, to reach the highest goal of human development, to achieve world peace and absolute bliss, to fulfill the very purpose of human life and existence. The spiritual energy and power of various cultures and traditions have been harnessed here together, simply, plainly, openly and transparently. Hence, this is called, the Book of Books. How man is distinct from the remaining existence? He alone identifies with the objective world and the self-constructed subjective world and becomes that himself, though for a very short fleeting moment. That gives him the knowledge of inner dynamics of external objects and thought process. (Man alone can identify even with abstract concepts). One of the Cosmo genesis theories is that from Space comes Air and from Air comes Fire and from Fire comes Water and from Water comes Soil. Space is primary of all elements without which no other element can evolve or exist. Total identification or merging with and being space is the key. This transforms identification from local or specific object (due to the presence of individual self) to Universal Identification, which is the aspect of pure space.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
