

The rhetoric of Aristotle

This book is a reproduction of a volume found in the collection of the University of Michigan Library. It is produced from digital images created through the Library's large-scale digitization efforts. The digital images for this book were cleaned and prepared for printing through automatic processes. Despite the cleaning process, occasional flaws may still be present that were part of the original work itself, or introduced during digitization, including missing pages.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
