

The Healing Ways Journal

THE HEALING WAYS JOURNAL provides you with your own personal space for releasing and recording innermost thoughts and feelings, a process well recognized as a powerful healing technique. In addition, every page contains excerpts from the authors own healing journey as he faced an advanced case of cancer and a spirit in shambles. This is a no-holds-barred exposure to painful as well as joyful thoughts, feelings, and experiences that he believes came to teach and to heal. He learned many things along the way, including the intricately close connection between body, mind and spirit, and what he could do to introduce healing harmony to that connection. This was a journey of life revisited, with nothing held too sacred to be reappraised, re-accepted, or discarded. Both cancer and spirit were healed beyond anything he could have imagined.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
