

The Foundations of Rhetoric, Vol. 4 (Classic Reprint)

For practical purposes there is no better definition of a good style than Swift's, Proper Words in Proper Places. Differ as good writers may in other respects, they are all distinguished by the judicious choice and the skilful placing of words. They all aim (1) to use no word that is not established as a part of the language, and to use it in the sense in which they use it, and as good; (2) to say so clearly as to be understood at once, and either so strongly as to attract attention or so agreeably as to gain attention; (3) to put every word in the place fixed for it by the idiom of the language, and by the principles which govern communication between man and man, the place which gives the word its exact value in itself and in its relations with other words; and (4) to use no more words than are necessary to effect the purpose in hand. If it be true that these simple principles underlie all good writing, they may properly be called The Foundations of Rhetoric. To help young writers to master these principles is the object of the following pages. They are especially intended for those who have had some practice in writing, but who have not yet learned to express themselves well. We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for

you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
