

My Stroke...A Will to Recover

An inspiring story of a young girl's courage to recover after a near fatal stroke at twenty seven. I congratulate you on your dealing with your stroke. You have found the right way to deal with a crisis, think of others. Good luck to you and your husband, Kirk Douglas

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
