

## Miracles: Take the FreeWay

God created a perfect world and pronounced it good. Where has that world gone? The standard answer is that we have sinned, fallen short of the glory of God, and royally screwed it up. Yet is man capable of putting asunder what God wills and creates perfect? Some will find the hypothesis in *Miracles: Take the FreeWay* blasphemous. Some will find it a source of unprecedented hope. No one who reads it will ever see the world again in quite the same way. Our current rationale and approach to finding peace on earth—sanctimonious judgment, political prowess and military might—not only are not working, they're disastrous. Take the FreeWay is about finding a better way. It's about rising above the battleground we call Earth and opening our minds to a radically different view. Based on *A Course in Miracles (ACIM)*, it will challenge the reader to re-evaluate everything he thinks he knows about the world and its Creator. Although the Bible paints a picture of an erratic, vengeful God, Jesus says, in *ACIM*, our Creator is neither unpredictable nor capable of violence. God is completely straightforward and unerringly consistent and loving. He has not abandoned us. We have abandoned God. This is a book about reclaiming the happiness and dominion over our lives that is our divine inheritance. Like the Prodigal, we have squandered that inheritance. Like the father in the parable, Our Father in Heaven patiently awaits our return to joy and sanity.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
