

Designer Profile 2006/2007

Since 1998 the bilingual Designer Profile has been the authoritative work on the design scene in Germany, Austria and Switzerland. Every two years it enables designers from the fields of industrial, exhibition, graphic and multimedia design to present their ideas, concepts and successes. These volumes form an indispensable reference work for management decision-makers and agencies who need speedy and targeted information on the spectrum of activities provided by potential designer partners.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
