

## Architecture EHV 07-08

Published yearly, architecture.ehv showcases the best graduation projects of the past year from the Department of Architecture, Building and Planning at the Eindhoven University of Technology, Netherlands. While the majority of the projects feature architecture design as their main component, the survey also features creative ingenuity in design systems, structural design, building technology, building performance research and urbanism. Projects are accompanied by colour images, plans and introductory texts.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
