

The Grand Illusion

In *The Grand Illusion: Lessons in Perception*, Shanna comments on illusion, evidence, and reality. Rich with penetrating observations, this small book overflows with the truth of human purpose and potential. The wisdom of awareness is clear and compelling, when one begins to perceive the purpose in what appears to be absurd, when one suspends evidence and peers through illusion in order to understand synchronism, rather than looking for polarity, then one begins to see, to perceive, continuity of life. It is this continuity that we perceive as permanence, and we mistake permanence for evidence, when what we should be perceiving is the illusion of permanence. There is only one relationship: your relationship with the Love of you, the One of you, the Light of you. All else exists to guide you to yourself. All others are teachers who allow you to love yourself. No one can give you yourself but you. No one can give you the truth of Love but you, for Light, Love and Truth are One and you are One.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
