

# Madly Chasing Peace: How I Went From Hell to Happy in Nine Minutes a Day

Many people know that there is truth to behind the theory that thoughts and emotions affect the physical body, but not many know exactly how it works, or more importantly, how to use this knowledge to affect physical healing. Dina's story is her raw, real experience which takes readers from the hell of suicidal depression and addiction where she started, through how out of sheer desperation- she developed the 3x3 meditation technique which has been the key to her physical, mental and emotional healing. The book gives readers concrete steps on how they can use her 3x3 technique to get results in their own lives. Taking just 9 minutes per day, Dina's 3x3 meditation has enabled her healing from alcohol and food addiction, regulating high blood sugar and cholesterol, weight loss and even relationships with others. The key is not spending hours on end in meditation or visualization practice, but to engage multiple times per day in shorter bursts to consistently interrupt old thought patterns and negative thinking.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
