

## When Lightning Strikes a Hummingbird: The Awakening of a Healer

In nature, the hummingbird is the messenger of higher vibrations, who lives intensely, seeking life's nectar. In much the same way, Foster Perry bridges the spiritual and physical worlds, bringing us messages of healing, clarity, and upliftment. At an early age, he was recognized by those around him as having a natural gift for healing and sight. Then, after literally being struck by lightning, he was swept into a journey of initiation and rapid expansion of consciousness. When *Lightning Strikes a Hummingbird* is the story of his personal evolution. Foster has developed a healing style that is truly his own, which he calls hummingbird medicine. He sings to his clients' souls, sharing his passion for living to help them find their true Selves. As he says, When the personality surrenders to the soul, then we are uniquely connected to the Self, which is God. We are here to make God conscious, to help God feel creation. We are creative stewards of a new Earth. An extraordinary healer, Foster is respected by thousands of clients worldwide.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
