

## On Being a Pharmacist: True Stories by Pharmacists

On Being a Pharmacist: True Stories by Pharmacists focuses on the humanistic side of pharmacy practice. In this compilation of stories, essays, and vignettes, pharmacists present recollections of encounters with patients, colleagues, pharmacy teachers, and other health professionals that had a great effect on their life or practice, and they share their humorous experiences in pharmacy practice. Pharmacists, student pharmacists, and their families will enjoy and relate to these personal reflections. The contributed stories will provide valuable insight into the joyous, and sometimes painful, aspects of pharmacy practice.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
