

## Gramadach gan Stro! (Irish Edition)

This is the third edition of Gaelchulturs best-selling grammar book, which has sold over 10,000 copies since it was first published in 2008. In this new expanded edition, there is a focus on certain grammatical rules that were not covered in the first two editions and plenty of additional exercises have been also provided. The author sought to simplify many of the rules and recommendations contained in An Caighdeán Oifigiúil Athbheithnithe (The Revised Official Standard) and to present them in clear, accessible language. Gramadach gan Stro! is aimed at those who have already achieved a reasonable standard of spoken Irish but who wish to improve their grammar. It is suitable for those who don't usually understand grammar books and who find complicated rules confusing. This book does not attempt to give detailed information about Irish language grammar; instead, the author focuses on the core aspects of that grammar and presents explanations in as few words as possible. Complicated terminology is avoided and plenty of examples are given in order to illustrate the various points. There is a strong emphasis in the book on daily usage and information is given regarding the differences between written Irish and the forms that are heard in everyday speech. Each unit contains a range of exercises, the answers to which are available at the back of the book. This will greatly benefit the user as (s)he seeks to gain an understanding of the various rules. An online interactive accuracy in Irish course, based on the book, is available at [www.ranganna.com](http://www.ranganna.com).

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us
