

If You Need Healing Do These Things

One of the first books ever written by Oral Roberts, *If You Need Healing, Do These Things* was originally published in 1947 shortly after Roberts began his healing ministry. As a young man dying from tuberculosis, who experienced the healing power of God for himself, Roberts wrote a book that still speaks profoundly to all people who are sick or hurting in some area of their life. Can God heal? Will He heal me? *If You Need Healing, Do These Things* answers those questions...and more. Written by someone who knows what it is like to lose all hope and to walk the very steps you may be walking right now, *If You Need Healing, Do These Things* is a down-to-earth, practical handbook on how to get into position to receive whatever miracle you need from God.

We've started our countdown to National Handbag Day on October 10, and that means we'll have special features for you every day, right up to the big event! Today, we're here to talk about the intersection of celebrity and accessories, and more specifically, how the two can become intertwined in public consciousness for years. The kinds of stars who carry a particular bag do a lot to shape the market's perception of it and the designer who created it, which is why so many brands give out free bags to stars now: they're hoping to create positive associations. In the cases you see below, though, things came along a little bit more naturally. You can't rush love, after all. Think of a bag-celeb duo we missed? Let us know in the comments!
